**DETAILED ACTION**

***Allowable Subject Matter***

**Claims 21-26 are allowed in view of the prior art.**

The following is an examiner's statement of reasons for allowance:

As to claims 21, 25, and 26, the prior art of record, taken either alone or in combination, fails to disclose or render obvious an exposure apparatus for exposing a substrate with a pattern of an original, along with a corresponding device manufacturing method using the exposure apparatus, the apparatus containing an optical path difference applying optical system for dividing light from the light source into two beams and for re-combining the two-beams to allow for the desired light interference within the system, in combination with the rest of the limitations of the above claims.

It is noted that, in light of the double patenting rejection presented by the examiner in the Final Rejection of February 23, 2005, the examiner concedes the point made by the applicant regarding the non-obvious nature of the amendments which more narrowly define the claim over the prior art of record. As such, the indication of allowable subject matter from that Office Action is carried over as reasons for the actual allowability of the instant claims of the application although no terminal disclaimer was filed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
